

To provide you with a good service, please fill in this form fully and insert it in the box with the airbag to be serviced. The airbag that is sent back is systematically serviced (from head to toe). If the airbag is not under warranty anymore, we will give you a free quote before starting any repair. If your airbag is still under warranty, please add a copy of your purchase invoice in the package.

Register your airbag on the website www.helite-service.com to extend the limited 2 years warranty into 4 years warranty.

 **IMPORTANT - Please send back the full airbag with all components (cartridge full or empty, lanyard, mechanical parts) cleaned. Please don't forget anything in the pockets.**
